

Project Title: Girls Positive and Safe Coaching Pathway

Term: May 2024 – December 2024

After the successful 2023 session on Training the Next Generation of Women Sport for All Leaders in the Caribbean, the workshop aimed to establish a robust network of female leaders within the Sport for All movement across the region. In a collaborative effort with TAFISA, three outstanding participants were chosen to serve as regional trainers. Their role is to facilitate the delivery of the Girls Positive and Safe Coaching Pathway program to coaches throughout the Caribbean. This initiative seeks to empower women in sports leadership roles while promoting safe and positive coaching practices for girls in the region.

This pathway is specifically designed to address gender inequity that hinders the participation of women and girls in sports at all levels. By focusing on coaching the coaches, the pathway aims to remove barriers and create a more equitable, accessible, accommodative, and positive experience for girls in sports. The implementation of this pathway improves the quality of sport coaching offered to girls, encouraging them and women to pursue training as sport coaches themselves. Furthermore, the pathway embeds training tools into existing coach training frameworks, ensuring the widespread adoption and long-term impact of its principles.

The project is fully funded under a grant agreement from TAFISA and will aim to continue to build capacity in the field of Sport for All to drive the adoption of key tools and practices to improve the quality of coaching girls and increase recruitment and retention of girls in sport in the Caribbean.

CANOC PATHWAY TEAM

Trainers

- Danisha Francis Braithwaite - GRN
- Kelisha Ashton-Yorke - SVG
- Safiya Sylvester - TTO

Project Coordinator: Ytannia Wiggins -BDS
